Dear Mr Nitschke

re: 68K/OS & 68K/ASM Available Now for the Sinclair QL

GST Computer Systems Limited are pleased to announce immediate availability of the 68K/OS professional operating system and the 68K/ASM assembler for the Sinclair QL. 68K/OS has been specifically developed for advanced home users, computer science students, independent software suppliers and OEMs who require a powerful multi-tasked and windowed operating system which combines all the facilities usually associated with minicomputer operating systems at a microcomputer price.

68K/OS is supplied on a plug-in card which fits into the peripheral expansion slot of any model QL and will also be compatible with the QL expansion rack. The operating system is supplied complete with utility software on microdrive cartridge and comprehensive user and programmer documentation.

Professional opinion is enthusiastic:

"GST's 68K/OS is the first affordable operating system for personal computers that combines professionalism with functionality"

(Personal Computer News: Software Pro-Test, November 1984)

"We see 68K/OS as an important software product for the M68000 family ... It is perhaps an indication of our regard for 68K/OS as a product and GST as a company that they are the first European software house to be offered support under Motorola's Independent Software Support Scheme"

(Tim Coombs, Microprosser Applications Manager, Motorola UK)

Products currently under development include:

- * Relocatable Macro assembler and linker
- * Full ISO standard Pascal and Fortran IV
- * Professional Wordprocessor
- * Support kit for QDOS software development
- * Floppy disk support
- * EPROM program

IN LETZTER SEKUNDE

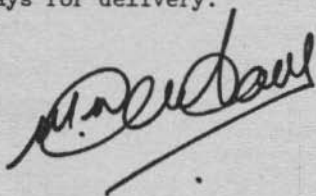

Potential OEM clients may also be interested in pricing, volume and delivery information for the following:

- * QL processor boards
- * Complete QLs supplied with 68K/OS as the on-board operating system
- * Availability of 68K/OS on other M68000 based machines

Please contact me for further details.

An order form is enclosed for 68K/OS, 68K/ASM and related products; please allow fourteen days for delivery.

Yours sincerely
